News
and Information

1st Called Special Session

The 1st Special Session of the 89th Texas Legislature began on the 21st of July without much fanfare. Any questions about obtaining a quorum to start were answered at the gavel call when 136 members reported present. Governor Abbott has set several items on the agenda for the session. Bill filing to address these issues has already begun in both chambers. The House has filed 219 bills and 26 joint resolutions by July 31st. The Senate has filed 47 bills and 3 joint resolutions. The bill referral process has begun and hearings have started.

The Special Session agenda includes eighteen items that were vetoed by the Governor from the regular session or remain incomplete:

FLOOD WARNING SYSTEMS: Legislation to improve early warning systems and other preparedness infrastructure in flood-prone areas throughout Texas.

FLOOD EMERGENCY COMMUNICATIONS: Legislation to strengthen emergency communications and other response infrastructure in flood-prone areas throughout Texas.

RELIEF FUNDING FOR HILL COUNTRY FLOODS: Legislation to provide relief funding for response to and recovery from the storms which began in early July 2025, including local match funding for jurisdictions eligible for FEMA public assistance.

NATURAL DISASTER PREPARATION & RECOVERY: Legislation to evaluate and streamline rules and regulations to speed preparedness for and recovery from natural disasters.

ELIMINATE STAAR TEST: Legislation to eliminate the STAAR test and replace it with effective tools to assess student progress and ensure school district accountability.

CUT PROPERTY TAXES: Legislation reducing the property tax burden on Texans and legislation imposing spending limits on entities authorized to impose property taxes.

PROTECT CHILDREN FROM THC: Legislation making it a crime to provide hemp-derived products to children under 21 years of age.

REGULATE HEMP-DERIVED PRODUCTS: Legislation to comprehensively regulate hemp-derived products, including limiting potency, restricting synthetically modified compounds, and establishing enforcement mechanisms, all without banning a lawful agricultural commodity.

PROTECT UNBORN CHILDREN: Legislation further protecting unborn children and their mothers from the harm of abortion.

BAN TAXPAYER-FUNDED LOBBYING: Legislation prohibiting taxpayer-funded lobbying, including the use of tax dollars to hire lobbyists and payment of tax dollars to associations that lobby the Legislature.

PROTECT HUMAN TRAFFICKING VICTIMS: Legislation, similar to Senate Bill No. 1278 from the 89th Legislature, Regular Session, that protects victims of human trafficking from criminal liability for non-violent acts closely tied to their own victimization.

POLICE PERSONNEL RECORDS: Legislation that protects law enforcement officers from public disclosure of unsubstantiated complaints in personnel files.

PROTECT WOMEN'S SPACES: Legislation protecting women's privacy in sex-segregated spaces.

ATTORNEY GENERAL ELECTION POWERS: Legislation proposing a constitutional amendment allowing the Attorney General to prosecute state election crimes.

REDISTRICTING: Legislation that provides a revised congressional redistricting plan in light of constitutional concerns raised by the U.S. Department of Justice.

TITLE THEFT & DEED FRAUD: Legislation, similar to Senate Bill No. 648 from the 89th Legislature, Regular Session, that provides strengthened protections against title theft and deed fraud.

WATER PROJECT INCENTIVES: Legislation, similar to Senate Bill No. 1253 from the 89th Legislature, Regular Session, that authorizes political subdivisions to reduce impact fees for builders who include water conservation and efficiency measures.

STATE JUDICIAL DEPARTMENT: Legislation, similar to Senate Bill No. 2878 from the 89th Legislature, Regular Session, relating to the operation and administration of the Judicial Department of state government.

2025 Flood Appropriation Project

Last month the Texas Water Development Board reached out regarding our most recent appropriation of \$22 million from the 89th Legislature. The next step is for the Harris County Flood Control District to apply for the funds in the late summer/early fall time frame with the award coming by the end of the year. We are very grateful for the working relationship we currently have with the Executive Director, Dr. Petersen, and Precinct 3 Commissioner Tom Ramsey, in identifying and working on projects with a direct impact to the Cypress Creek Watershed.

The project designated for these funds will be to improve the dam at the lake in the Kickerillo-Mischer Preserve, which runs along Cypresswood Drive at the Tomball Parkway. These funds, when added to the contribution from the Harris County Flood Control District, should be sufficient to complete the project. It includes adding armoring to the surface to complete protection of erosion in areas along the dam.

As a long time resident of the area I am very proud to have brought \$34 million in flood project funding to directly impact our community. No one will soon forget the ravages of Hurricane Harvey or the damage that intense flooding has done to our area from previous storms. Our history of flooding and its future potential have kept this issue at the top of our legislative priorities.

New Legislation School District Cell Phone Policy

As a result of [House Bill 1481](#) from the 89th Session of the Texas Legislature, all Texas school districts must develop, adopt, and implement a policy prohibiting the use of personal communication devices by students on school property during the instructional part of the school day. This new law requires school district to have a written policy in place no later than September 18, 2025. Districts may use differing approaches that may include a ban on possession, restricting use, or designating secure storage. The statute requires the policy include a disciplinary plan for violations and policies must be in place by September 18, 2025.

Exceptions to this new law are able to be made in order for districts to accommodate a student's individualized education plan or other documented needs that require such a device.

Be sure and research your school district's policy and requirements.

The Texas Education Agency has a guide to implementation which can be found [here](#):

Our goal is to continue providing clear, consistent, transparent communications to our stakeholders, highlighting market and operations statistics, key ERCOT initiatives, and breaking down trending issues for a broader audience.

Cypress Creek Drainage Improvement District

CCDID Monthly Report

Raveneaux Update

Harris County Flood Control District and Cypress Forest Public Utility District entered into a Joint Participation Agreement involving the exchange of land and construction of detention facilities along Cypress Creek to improve drainage and reduce flood risk. The agreement was signed on June 26, 2025.

Under the agreement, the PUD will convey 65.7 acres to Harris County Flood Control District for detention use while Harris County Flood Control District will transfer 27.2 acres to the PUD. Following the voter approval of \$10 million bond referendum in May 2025, the PUD will lead the design and construction of up to five detention basins providing approximately 300-acre feet of stormwater storage. Precinct 3 will

oversee project development and ensuring timely coordination and implementation. Upon completion, Harris County Flood Control District will assume maintenance of the basins.

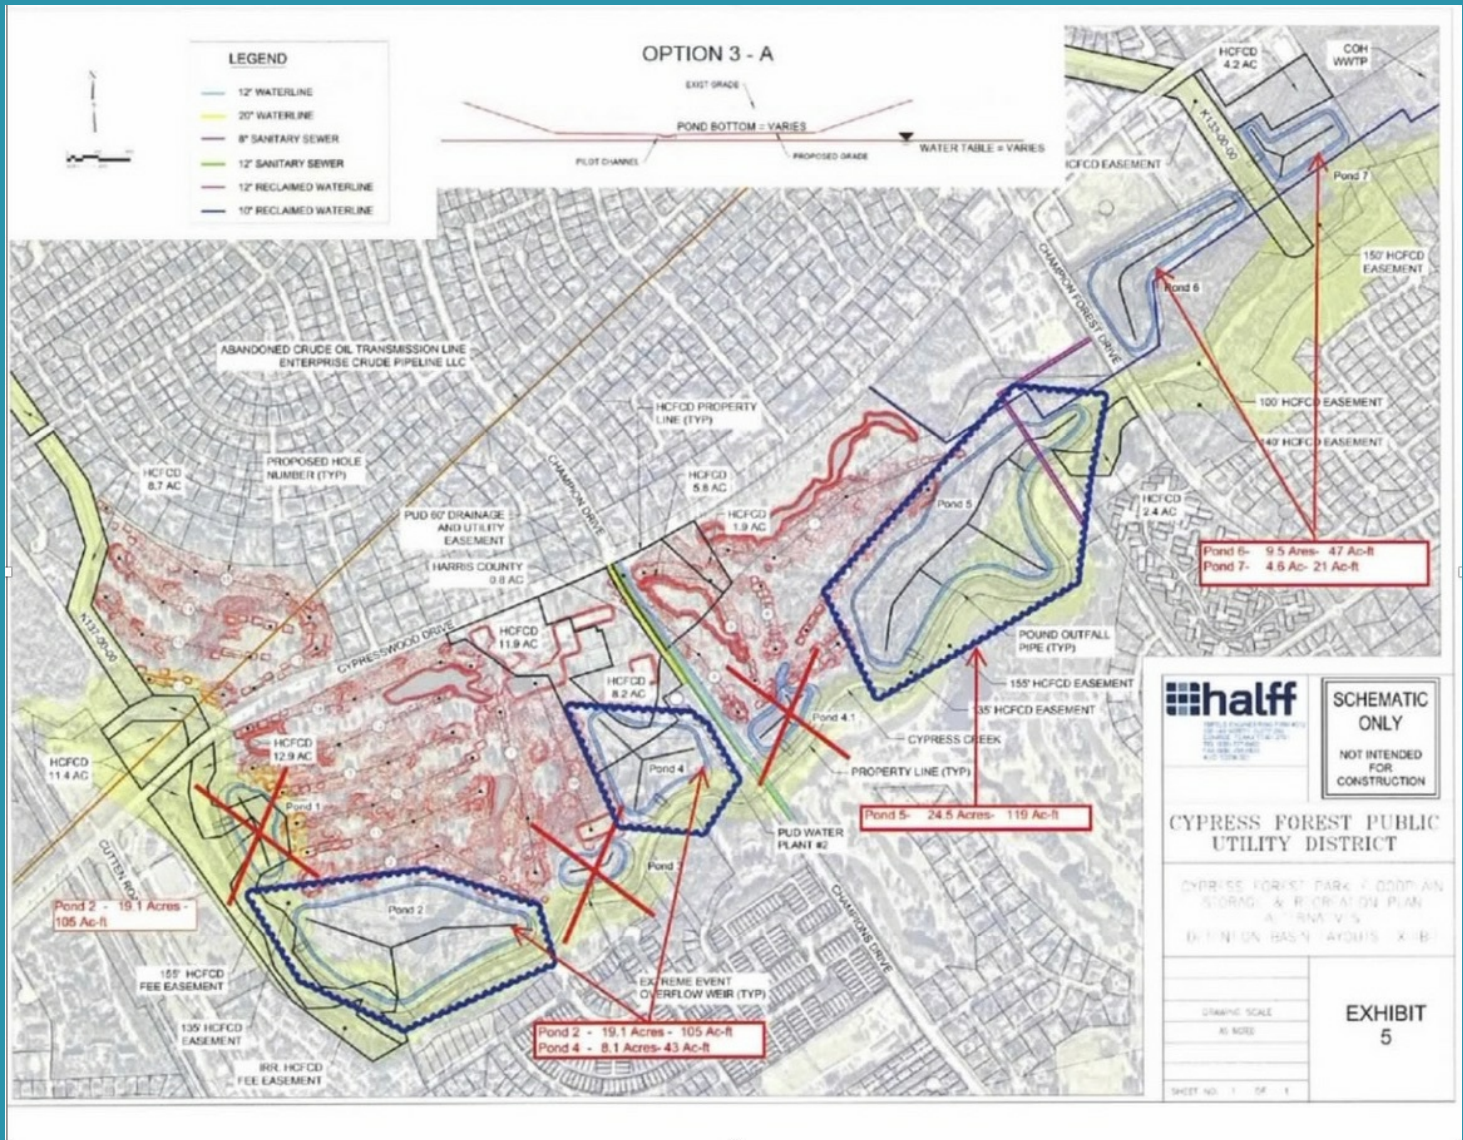

The proposed locations of detention basins is in the graphic below.

July Run Totals

EMS - 2762

FIRE - 841 (includes Rescue, HAZMAT, Automatic Alarms)

TOTAL = 3603

The start of school is right around the corner and the kid's safety is #1.

Whether children walk, ride their bicycle or take the bus to school, it is extremely important that they take proper safety precautions. Here are some tips to make sure your child safely travels to school:

Walkers »

- Walk on the sidewalk, if one is available; when on a street with no sidewalk, walk facing traffic
- Before you cross the street, stop and look left, right and left again to see if cars are coming
- Make eye contact with drivers before crossing, and always cross streets at crosswalks or intersections
- Stay alert and avoid distracted walking

- Stay alert and avoid distracted walking

Bike Riders »

- Ride on the right side of the road, with traffic, and in a single file
- Come to a complete stop before crossing the street; walk bikes across the street
- Stay alert and avoid distracted riding
- Make sure your child always wears a properly fitted helmet and bright clothing

Bus Riders »

- Go to the bus stop with your child to teach them the proper way to get on and off the bus
- Teach your children to stand 6 feet (or three giant steps) away from the curb
- If your child must cross the street in front of the bus, teach him or her to walk on the side of the road until they are 10 feet ahead of the bus; your child and the bus driver should always be able to see each other

We want 2025 to be a safer year. If you want to request a fire station visit, fire truck visit, a fire safety talk, CPR training at your school, church, HOA, Independent Living Center, please visit our website at www.cyfairfd.org to request.

Brian Piatowski has been assigned the

responsibilities for monthly updates for ESD 11.

His Contact Information is :

Phone 281-524-7667

Email: brian.piatkowski@esd11.com

Our response time performance remains exceptional and may be found with other critical information on our website at <https://esd11.com/transparency/>. The data is updated monthly after each regularly scheduled Board meeting, on the 3rd Thursday of the month.

The glorious summer heat has finally arrived! What can you do to make your family safer during the hottest season of the year?

- Beat the heat—stay hydrated.
- For adults that have children, always check the back seat when exiting a vehicle.
- Protect your skin and head; wear appropriate sunscreen and a hat when outdoors.

If you would like to learn more about heat-related illnesses and how to prevent them, click the link below to hear from our very own Dr. Kovar.

Simple Steps to Save a Life: Hot Car Fatality Prevention

It's easy to be lulled by a baby's peaceful sleep or quiet contentment in the backseat, and the thought of not waking them up or taking them out of their car seat for a quick errand can be incredibly tempting. However, it's crucial to remember that leaving a child unattended in a vehicle, even briefly, can result in serious injury or fatal heatstroke. Car interiors heat up much faster than you might think, even on mild days.

Although our area has been fairly lucky this summer with unusually moderate temperatures so far, there have been at least 4 child, hot car-related deaths in the Houston area as of late July 2025. Here are some helpful tips for parents and caregivers about heatstroke prevention for children, courtesy of Safe Kids Worldwide.

Hard Facts About Heat Car Deaths

- On average, a child dies from heatstroke every 9 days. In more than half of these deaths, the caregiver forgot the child was in the car.
- A car can heat up 19 degrees in just 10 minutes. And cracking a window DOES NOT help.
- Young children are particularly at risk, as their bodies heat up three to five times faster than an adult's.

Top Tips for Preventing Hot Car Deaths

Reduce the number of deaths from heatstroke by remembering to **ACT**.

1. **Avoid** heatstroke-related injury and death by never leaving a child alone in a car, not even for a minute. And make sure to keep your car locked when you're not inside so children don't get in on their own.
 2. **Create** reminders. Keep a stuffed animal or other memento in your child's car seat when it's empty and move it to the front seat as a visual reminder when your child is in the back seat. Or place and secure your phone, briefcase, purse, or wallet in the back seat when traveling with your child.
- Take action.** If you see a child alone in a car, call 9-1-1. Emergency personnel want you to call. They are trained to respond to these situations.

Klein FD Out and About in the District

The Klein Fire Department is rated ISO Class 2 and provides Fire Suppression, Rescue, and Medical Emergency Assistance to a resident population of 173,549 residents covering the Spring/Klein area and encompassing approximately 49 square miles.

LITHIUM

BATTERY SAFETY

Lithium-ion batteries supply power to many kinds of devices, including smartphones, laptops, e-scooters and e-bikes, e-cigarettes, smoke alarms, toys, and even cars. If not used correctly or if damaged, these batteries can catch on fire or explode.

The problem

- These batteries store a large amount of energy in a small amount of space.
- Sometimes batteries are not used the right way; batteries not designed for specific use can be

dangerous.

- Like any product, a small number of these batteries are defective. They can overheat, catch fire, or explode.

Safety Tips

- Purchase and use devices that are listed by a qualified testing laboratory.
- Always follow the manufacturer's instructions.
- Only use the battery that is designed for the device.
- Put batteries in the device the right way.
- Only use the charging cord that came with the device.
- Do not charge a device under your pillow, on your bed, or on a couch.
- Do not keep charging the device or device battery after it is fully charged.
- Keep batteries at room temperature when possible. Do not charge them at temperatures below 32°F (0°C) or above 105°F (40°C).
- Store batteries away from anything that can catch fire.

Signs of a Problem

Stop using the battery if you notice these problems:

- odor, change in color, too much heat, change in shape, leaking, or odd noises.
- If it is safe to do so, move the device away from anything that can catch fire.
- Call 9-1-1.

Battery Disposal

- Do not put lithium-ion batteries in the trash.
- Recycling is always the best option.
- Take them to a battery recycling location or business ([Google: Battery Disposal near me](#)).
- Do not put discarded batteries in piles.

Visit <https://www.nfpa.org/Public-Education/Fire-causes-and-risks/Lithium-Ion-Battery-Safety> for more information.

Cy-Fair ISD News

Cy-Fair ISD named TxETA Exemplary District of Distinction

July 24, 2025—CFISD was recently named an Exemplary District of Distinction by the Texas Educational Theatre Association (TxETA). This is the highest designation awarded to individual schools and districts that are making outstanding contributions to raising the standards for theatre education through achievement, curation of resources, diversity and advocacy for theatre arts.

To achieve the prestigious honor, schools and districts across the state were evaluated in different categories, including quality and quantity of theatrical performances, play libraries and access to acting spaces, community and administrative support for theatre programs, student involvement in University Interscholastic League (UIL) contests, participation in theatrical design competitions and theatre technology.

"We could not be more proud of our thespians and their teachers for the outstanding efforts to bring this recognition to our community," said John Morrison, CFISD director of fine arts. "The incredible performances and commitment to the furthering of theatre education in our schools is to be commended."

TxETA aims to support, promote and expand educational theatre at all levels y providing educational opportunities, building a network of resources and support and creating a forum for establishing standards, programs and projects in order to celebrate the importance of theatre.

Triple-A and More: Noah Vaughan's Path to Success

Hofius eighth grader Noah Vaughan is a phenomenal student with unmatched ambition. Noah exemplifies what it means to be a Triple-A student in every way possible. He has an outstanding academic record, is a recognized cellist, and is devoted to sharpening his basketball skills as a member of both his school's basketball team and a community AAU basketball team.

Affectionately referred to as a "triple threat" because of his success in academics, arts, and athletics, Noah knows that his success isn't just luck. Throughout his time at Hofius, Noah has consistently maintained all A's, thanks to the support of those around him.

"I listen to my parents and manage my time as they recommend. I spend less time on my phone and more time on my Chromebook, focusing on my work for my classes," Noah said. "My motivation for staying on top of my learning is being able to achieve things in life and being able to go to a good college when I get older. The knowledge I get from school motivates me to keep going.

Tomball ISD Honored with 2025 TAEA District of Distinction Award

TOMBALL - The Texas Art Education Association (TAEA) announced the 109 winners of the 2025 District of Distinction Award. Among the list of honorees is Tomball ISD. The districts received the honor for providing a well-rounded education that advocates and integrates visual arts curriculum to inspire creativity and build social emotional learning that connect learners to their community and beyond.

TAEA is the leading advocate for the visual arts in the state. The organization has previously honored outstanding TAEA members for work in their classrooms and districts. This is the seventh year that TAEA is honoring districts that meet rigorous criteria as evidenced from data.
